

BRIXTON CYCLES

A worker's co-operative

What do we do as a part of standard service?

- Check frame, forks, dropout straight.
- Wash bike, clean drivetrain.
- Check bottom bracket, tighten crank bolts and pedals.
- Adjust cones front and rear.
- Secure wheels.
- True wheels front and rear, replacing spokes if necessary.
- Check tyres for wear, foreign objects, pressure. Replace if necessary.
- Check cassette lock ring.
- Check brake fixing bolts and mechanism, clean and oil.
- Check brake blocks and cables, adjust and replace if necessary.
- Check chain, cassette and chainrings for wear, replace if necessary.
- Adjust and lubricate front and rear derailleurs and cables.
- Check suspension forks, lubricate externally.
- Adjust headset, check bars and stem.
- Replace grips or bartape if necessary.
- Adjust and secure saddle.
- Adjust and fit accessories.
- Polish.

There are a few things a service doesn't cover – for example, replacing headsets or bottom brackets, and building wheels. We can price these in on top of the service charge, but it may be that you should consider a Senior Service.
